

URUGUAYAN MARINE SAFETY Ltd
we serve to save lives

VISION

We will be the Uruguayan company of reference at national and international level for its excellence in quality and efficiency in the supply of products and services for the survival and protection of life and property at sea, air and land.

MISSION

We develop activities of import, export, marketing, consulting and certification of products for the protection of life and property at sea, air and land.

Our work has the highest level of quality that human life and the environment deserve, seeking to satisfy our users and customers, constantly creating value through the fair equation quality - price.

MANAGEMENT POLICY

The Management of Uruguayan Marine Safety recognizes the social role of our work, by providing services for the protection of human life, the environment and property as well as complying with the demands and needs of the interested parties and the context.

We establish and uphold a relationship of technical and commercial trust with our clients, users, and suppliers. Moreover, we foster a preventive culture rooted in a dedication to safety, self-care, health, and the overall well-being of all parties involved. To achieve this, we provide secure and healthy working conditions, aimed at preventing occupational health deterioration. In parallel, we invest significantly in training, technology, and process enhancements.

Furthermore, we highly value a positive attitude, mutual respect, and a resolute commitment to the company's objectives. Consequently, we actively encourage employee participation to identify and eliminate hazards, while also minimizing risks associated with both routine and non-routine activities.

In strict adherence to legal and regulatory requirements, both on a national and international level, as well as other contracted stipulations, we ensure compliance in all facets of our operations. This commitment extends to taking continuous actions to enhance and refine our Management System.
